Year End Luncheon

Each May we have our *end of club year* luncheon. Preston has made arrangements for us at the Vegas Chinese Buffet, 11:00 a.m., May 21,

2016. The location is 505 N. Valley Mills Dr. @ Waco Dr., Westview Village Shopping Center (next to Hancock Fabrics and Michael's). The meeting room is to the left and all the way to the back.

President's Message By Glenn Huddleston

I want to begin with kudos for all members who pulled together to make our 2016 WIS Annual Iris Show and Sale a tremendous success. Members came forth with an impressive display of horticultural

entries and artistic designs (see pgs. 3-5).

Iris lovers came out in numbers to view the show and purchase irises. I overheard guests commenting that they had never seen irises in so many colors. Others exclaimed "Lovely", "Breathtaking", and "I wish I had room in my yard for irises."

I was impressed with the quality and variety selection of potted irises offered for sale. Most of the irises were purchased and those that weren't were sold the next day at the Gardener's Gathering in Woodway. This will give our Society a financial boost as we prepare to host the Region 17 meeting in Waco in August.

We are happy to announce our Society membership was increased by three during our April Iris Show. Please welcome Cynthia Posey and Gerri Freedman, both of Waco and Nancy Aycock of Hubbard.

I must recognize Ken Anderson, Show Chairman, for his tireless efforts to insure the show was a success.

We always look forward to our May meeting. Our new members are reminded this will be a meet and greet, social luncheon. The Society will pay for all members' meals. The luncheon will be held at the Vegas Chinese Buffet (see above for time and address).

At this luncheon, we enjoy fellowship as Society members, recognize award winners from our iris show and install officers for the 2016-2017 year. As of this writing, no one has volunteered to serve as President next year. There are no requirements to be President other than being an AIS member. As a bonus, you will have the satisfaction of knowing you prevented our Society from losing our AIS affiliation. I will help anyone who volunteers for the position. Call me at (254) 694-5446.

By now, AIS members should have received the blue ballot for the AIS 2016 Tall Bearded Symposium. The ballot is used to vote for your 25 most favorite irises. As a Socie-

ty, let's do our part to support Region 17 in this important balloting. If you wish, you may bring your completed

ballot to the May meeting to be sent on to the Region 17 RVP—Dawn Boyer. If you want to mail it yourself, her address is 1900 Daws Drive, Amarillo, TX 79124. You may also send your 25 numbers to Dawn by e-mail:

dawn.boyer@yahoo.com.

Region 17 Convention Updates by Peggy Cathey

Plans are well underway for the Region 17 Convention WIS is hosting at the Hampton Inn South on August 19-20. We are hoping to have a few committee meetings between our May meeting and the convention. We are checking with the hotel to see if we can possibly meet in their breakfast area so committee members may see the facilities and have a better idea of what we will need. If you wish to be a part of

this committee, please let Peggy know. We need members to make arrangements for catering the Saturday meal, games, entertainment or other activities for the Friday program, someone (s) to organize the Boutique and others to gather items for the "goodie bags". The theme for this year's Convention will be: *Irises, Bridging the Brazos*, so please be thinking about this as we will need ideas for a logo, decora-

tions for the tables, and a color scheme for our meeting.

End of Season Clean-up by Peggy Cathey

As the spring iris bloom season comes to a close we should be thinking about getting our irises ready for their summer dormancy. If you have bloomstalks still standing, you should carefully bend the stalk toward the ground until it "pops" off even with the rhizome.

If the stalk isn't willing to pop, then it should be cut off at the base, being careful not to damage the rhizome. If there are dead leaves around the base of the plants or weeds, remove them to prevent insects from seeking a place to hide out. There is no need to ever trim the leaves back, as most garden books suggest. The plants need

their leaves to make food to see them through the stressful summer heat. If you feel your irises would benefit from a light fertilization, do so now, before the end of June. Otherwise, let them go dormant until the early fall when the weather cools and the fall rains begin. The irises will break dormancy and start to put on new growth before the winter sets in. To get them through the winter, you will want to fertilize them between mid September and the end of October.

AIS Photo Contest Underway

The following was noted in the May 9, 2016 issue of the American Iris Society E-Newsletter—News & Notes

The 2016 running of the Photo Contest is accepting entries. Entries will be received from May 1st to July 31st (midnight).

Now is a great time to be taking your photos for this and to remember all the great irises you see this year. For most of us, now is when we have the best opportunities to see and enjoy irises. Whether it is the <u>AIS Convention</u>, all the <u>iris</u> shows, your garden, or other gar-

dens, take your camera or cell phone!

Contest details, including prizes for the winners, can be found here. That page also has a link to the entry form (PDF). Questions and entries can be emailed to Janet Smith at gby456@gmail.com or send your photo CD and form to the address on the form. (If you would like to participate and don't have internet access, please contact Peggy-254-854-2558 for a copy of the form.)
